

February 2011

Dear Heysham Resident,

New Children's Play Area and Recreation Space

We would like to inform you that initial work for the above project will be starting on site in the next few weeks.

The first phase will be to establish the base of the new play area and install some of the play equipment. This will be undertaken by Lancaster City Council. Following this, work will be undertaken to finalise the project.

The area will need to be accessed over the grass from the car park, if any damage is caused this will be reinstated.

We would appreciate your support and tolerance while this work is being undertaken.

Regards

Helen Ryan
Cultural Projects Manager
(01524 582822)

Information; The play area and recreation space is to be located on the grass area near the village car park, between the two existing clumps of trees next to the path.

Consultation was undertaken in summer 2010 with yr6 students from St. Peter's Primary School and questionnaires hand delivered to 464 homes within the immediate vicinity. The final design has also been available of view on notice boards and Heysham Neighbourhood Council website.
